Standard Greeting R3-66-101

Please choose your greeting from the following three options, available at no additional charge (please see page i for additional information):

- 1) **STANDARD GREETING AS SHOWN** above and on the next page. On your order form, specify greeting number only. Do not indicate a typestyle. There is no need to write the whole greeting on your order; simply write the names to be imprinted on the cards.
- 2) **STANDARD GREETING IN A DIFFERENT TYPESTYLE.** On your order form, specify the greeting number for your wording AND the typestyle from pages v or vi. There is no need to write the whole greeting on your order; simply write the names to be imprinted on the cards.
- 3) **CUSTOM GREETING.** To create your own greeting, specify a typestyle from pages v or vi, and write "CUSTOM" on your order form. The price includes up to 6 lines of type for greeting and names (any lines over 6 are \$6.00 per line). Please be sure to underline all capital letters, and indicate your exact spacing between lines. We will use the sizes of type shown on pages v & vi for your names and Custom Greeting, making the names smaller than your greeting. If not provided with specific instructions, our typesetters will use their discretion in type sizing, placement, and spacing. Please write out your copy completely and exactly as you want it to appear on your finished order. Please see page ii for additional information about custom printing and special formatting.

If a specific greeting or typestyle is not indicated on your order, we will print what is shown on the sample.
